**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Rigole (WO 00/22705).

With respect to claims 1-11, Rigole discloses a wavelength tunable laser comprising a first resonant cavity containing an optical amplifier medium (11; 34); a pair of opposed reflector members which define the first resonant cavity (19, 20); second resonant cavity (12; 27) and a reflector external (13) to said first resonant cavity delimiting the second resonant cavity thereinbetween, and selectively reflecting an integer number N of optical frequencies, wherein said two opposed reflector members are not wavelength selective and delimit an amplifying first active section coupled to phase tuning second active section, each of said two active sections connected to an electrical supply, said second active section having an effective group index that can be adjusted electro-optically as a function of an electrical voltage applied, said first and second active sections having dimensions such that a difference between optical frequencies of any two resonant modes of said first resonant cavity is never equal to a difference between optical frequencies of any two selectively reflected frequencies of said reflector, and second active section modifying an optical length of said first resonant cavity to provide for a selective coincidence of only one optical frequency between the resonant modes of said first resonant

cavity and the selectively reflected frequencies of said reflector, note page 3 line 4 to page 8 line 32, see figures 3 and 7.

### **Response to Amendment**

2. Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
